

# INTEGRATING ARMY-SPECIFIC CAPABILITIES/FUNCTIONALITY INTO JET

## ARMY Provided Software

PD-IMETS receives initial pre-baseline JET code from ESC/ACW for informational purposes

PD-IMETS develops Army-provided Apps (to include IWEDA & WRE) (para 3.3 of SOO). PD-IMETS opens JET discrepancy reports for any needed JET changes

PD-IMETS delivers Army provided Apps to JET contractor

JET contractor integrates Army provided software into JET. JET contractor opens Army Apps discrepancy report for any needed Army Apps changes

AF Testing (with Army support) of final JET code.  
**JET Baseline established**

## OTHER ARMY-UNIQUE C2 CAPABILITIES & INTERFACES INTEGRATION:

ESC/ACW distributes baseline JET code to PD-IMETS

PD-IMETS integrates C2 capabilities with JET code. PD-IMETS opens JET discrepancy reports for any needed JET changes

PD-IMETS leads IMETS-JET testing.

PD-IMETS distributes, installs, & maintains IMETS-JET code on current/future IMETS units

JET contractor distributes, installs, & maintains final JET code at operational AF units

ONLY the JET Contractor makes changes to JET code, maintaining a single JET baseline

ONLY IMETS Contractor makes changes to Army provided applications.
